

	Description	Material
1	Diffuser Body	PP (Polypropylene)
2	Membrane	EPDM
3	ø¾" NPT (M) Nipple mold	PP (Polypropylene)

Model Details

	ECD270 (9")
Diffuser Body (O.D)	Ø9.84"
Membrane	Ø9"
Color	Black
Design air flow range- (SCFM)	1.5 to 3.0 SCFM
Active surface area	0.41 ft ²

Connection on pipe: Disc Diffusers are suitable for ø¾" NPT (F) connections (Grommets, ø¾" NPT couplings, other fittings which is matching for ø¾" NPT (M) insertions etc...) On pipe.

Special Characteristics: SSI ECD270 (9") is specially designed for cost saving. ECD270 (9") diffuser is a single mold body where the cost of diffuser replacement is equivalent to other competitors membrane replacement cost.
